What is ECHO ONE:

ECHO ONE (Extension for Community Healthcare Outcomes, Oncology Network Education) is different from previous webinars, where only professionals lectured to healthcare providers. It is not just a one-way meeting to listen to a lecture, but an interactive learning opportunity where participants can ask questions and discuss freely in a bi-directional-way.

This is a telementoring program that enables participants to improve patient care, using an application called ZOOM, which can be accessed not only from the workplace but also from a PC or smartphone at home.

Please join the discussion!

How to Participate in ECHO ONE

Sign up for membership through the TeamOncology.Com
https://www.teamoncology.com/seminar/project_echo_one
After becoming a member, you can apply to this session.
so please register for this event.

Once you register, you will be sent a URL to join this ECHO ONE.
